

Test Plan - E-Commerce Demo (demoblaze.com)

Project

Manual Testing of Demo E-Commerce App (demoblaze.com)

Objective: Verify major user workflows including login, product search, add-to-cart and checkout.

Scope

In Scope: Functional testing of login, product search, cart, checkout, and payment flows; UI verification and cross-browser checks.

Out of Scope: Backend load testing, security penetration testing.

Approach

Test design: positive, negative and edge cases. Exploratory testing on new features. Regression testing for critical flows.

Entry & Exit Criteria

Entry: Test environment deployed, test data available. Exit: All critical defects resolved, regression tests passed.

Deliverables

Test Plan, Test Cases (Excel), Bug Report (Excel), Screenshots and Test Evidence.

Timeline

Created on 2025-10-14. Execution planned over 2 weeks; iterative updates as bugs are discovered.
